TeleRad 360 Coffsite

Exam

Technologist completes an exam and sends it to Telerad360.

Technologist Review

Technologist can complete the exam or modify according to exam orders, as well as upload pertaining paperwork and send private messages to the reading radiologist.

Review Current & Prior Exams

Radiologist can review the current exams and associated priors, plus all scanned paperwork and associated technologist's notes.

Delivery & Accessibility

Reports can be accessed by logging into Telerad360 or reports can be distributed directly to any EMR.

Telerad360 -Immediate Availability

Exam is delivered to Telerad360 and immediately made available in the cloud for review. Telerad360 can be accessed from any web enabled PC. It is completely browser agnostic with a zero footprint viewer.

Radiologist Review

Radiologist views exams once they have been approved and completed by the technologist.

Dictate VR

Over 200 available templates are offered, and Telerad360 allows for the creation of custom templates. No dictation limitations.

Read Reports & Track

All standard statistical reports are available to all reading radiologists to track and optimize their performance.
